-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings were received on 5/5/05. These drawings are disapproved. See the explanation listed below.
2. The drawings are objected (secondly) to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: **22, 24** (page 5, line 1), and **26** (page 5, line 13). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
3. The drawings are objected (secondly) to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: **38** (Figure 1). Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet,

even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. The drawings are objected (secondly) to as failing to comply with 37 CFR 1.84(p)(4) because reference character "500" has been used to designate both "an image forming apparatus" (Figure 1) and "a module" (page 5, paragraph [0015], line 1, etc.). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

5. The abstract of the disclosure is objected to because of the inclusion of legal phraseology, such as "comprising" (page 16, line 2). Correction is required. See MPEP § 608.01(b).

6. The abstract of the disclosure is objected to because "a second developed image" (page 16, line 4) should be "a first developed image" to be consistent with page 5, lines 11-24 of the specification. Correction is required. See MPEP § 608.01(b).

Claim Objections

7. Claims 2-13 are objected to because of the following informalities:
- a. Claim 4, line 5, "said transfer area" should be "a transfer area" because it is the first time to use this terminology.
 - b. Claim 4, line 7, "to form a second first developed image" should be deleted because the imaging device only forms a latent image.
 - c. Claim 6, line 3, "develop image" (both occurrences) should be "developed image".
 - d. Claim 7, line 5, "to form a second first developed image" should be deleted because the imaging device only forms a latent image.
 - e. Claim 7, line 19, "develop image" should be "developed image".
 - f. Claim 7, line 20, "develop image" should be "developed image".
 - g. Claim 12, line 2, "develop image" should be "developed image".
 - h. Claim 12, line 3, "develop image" should be "developed image".
- Appropriate correction is required.

Claim Rejections - 35 USC § 112

8. Claims 2-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 is considered to be indefinite because it is unclear whether "a second first developed image" (line 7) is a first developed image or a second developed image.

Claim 7 is considered to be indefinite because it is unclear whether "a second first developed image" (line 5) is a first developed image or a second developed image.

Claim 12 is considered to be indefinite because it is unclear how the first and second developed images are in the same image frame when claim 7 discloses that they are in an adjacent image frame.

Allowable Subject Matter

9. Claims 2-13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2852

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Remarks

11. Claim 1 has been treated as a cancelled claim even though a correction is made to line 4.
